Bristol Bay Regional Seafood Development Association, Inc.

Notes to the Financial Statement

NOTE 1 - NATURE OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Bristol Bay Regional Seafood Development Association, Inc. (the "Association" or "BBRSDA") was organized as an Alaska nonprofit corporation to implement the provisions of AS 44.33.065 for fishers operating within the Bristol Bay Region of Alaska. A primary goal of the Association is to promote and market seafood harvested in the region and to thereby improve fisher revenues. Without limiting the generality of the foregoing, the Association shall implement a wide range of strategies for improving fisher income including:

- Promote and market Alaska seafood products harvested in the region
- Research ways and means for increasing fisher revenues by improving quality and the market reputation for Bristol Bay Seafood
- Establish education, research, advertising and sales promotions for seafood harvested in the region
- Research and implement ways and means for reducing fisher costs
- Prepare market research and product development plans for promoting seafood harvested in the region
- Cooperate with ASMI and other public or private entities engaged in seafood promotion, consumer education, seafood quality improvements or research in the areas of seafood harvesting, processing or distribution that may pertain to seafood harvested in the region
- Cooperate with commercial fishers, fisher organizations, seafood processors, AFDF, FITC, state and federal agencies and other relevant entities to investigate market reception to new seafood forms and to develop commodity standards and future markets for seafood products from the region
- Conduct other related activities as directed by its Board but only if permitted by governing laws and regulations
- The Association shall not advocate any position on state resource allocation issues, lobby the state or agencies of the state, or engage in an activity for which registration is required under AS 24.45.121.

The significant accounting policies followed by the Association are described below:

Basis of Accounting

The financial statement of the Association has been prepared on the accrual basis of accounting and, accordingly, reflects all significant receivables, payables and other liabilities. Net assets are classified on the statement of financial position as unrestricted or temporarily restricted based on the absence or existence and type of donor-imposed restrictions.

Basis of Presentation

The Association reports information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets and permanently restricted net assets. Unrestricted net assets are those currently available at the discretion of the Board for use in the Association's operations. All net assets are unrestricted for use by the Association or their temporary donor restrictions were met within the year presented.

Bristol Bay Regional Seafood Development Association, Inc.

Notes to the Financial Statement, Continued

NOTE 1 - NATURE OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and related disclosures at the date of the financial statements and the reported amounts of revenues and expenses. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and any other unrestricted highly liquid investments with an initial maturity of three months or less. The Association's cash investment and balance per year-end statement is described below. In determining what money market fund to invest in, the Association puts tremendous weight on safety of principal.

	<u>2017</u>	<u>2016</u>
Cash deposits in Alaskan bank. FDIC insured.	\$ 571,909	326,163
Cash deposits in Vanguard Treasury Money Market, VUSXX, which invests per its prospectus in short-term treasury securities (underlying securities are backed by the full faith and credit of the U.S. government). Not FDIC insured.	651,135	434,788
Cash deposits for Budget Reserve are held in Vanguard Federal Money Market Fund, VMFXX, which invests per its prospectus in short-term U.S. government securities (underlying securities are backed by the full faith and credit of the U.S. government). During 2015, deposits were held in VMMXX. Not FDIC insured.	<u>2,596,424</u>	<u>2,466,942</u>
Total cash and cash equivalents - bank balance	<u>\$ 3,819,468</u>	<u>3,227,893</u>

The Association's Vanguard accounts are protected by the Securities Investor Protection Corporation (SIPC) up to a maximum of \$250,000 for cash claims and \$500,000 total. Vanguard has obtained private insurance from Lloyd's of London Company (Lloyd's) to provide additional protection and security for client accounts. For customers who have reached the full SIPC limits, further protection (with a customer limit of \$1.75 million for cash) is provided by the Lloyd's policy, subject to an aggregate loss limit of \$250 million for all eligible customer claims.

Funds other than those held at Vanguard are insured by Federal Deposit Insurance Corporation (FDIC) up to \$250,000. At December 31, 2017 and 2016, approximately \$322,000 and \$76,000 of the balances exceeded insured limits, respectively.

Bristol Bay Regional Seafood Development Association, Inc.

Notes to the Financial Statement, Continued

NOTE 1 - NATURE OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Assessment Revenues

In May 2006, Bristol Bay driftnet permit holders voted pursuant to Alaska Statute 43.76.370 to approve a 1% seafood development tax on the ex-vessel price of seafood sold, the "assessment", on their harvests to support BBRSDA. The tax is collected by the State of Alaska and distributed to BBRSDA. The collection and disbursement process, from the salmon season in which the tax is collected until the assessment amount is received by BBRSDA, takes a year to complete. Because the funds are considered part of the State's general fund prior to distribution, BBRSDA does not recognize them as revenue until the beginning of the State fiscal year in which they will be distributed to BBRSDA. The Association received substantially all of its revenue from the State of Alaska. Annual funding by the State of Alaska is subject to appropriation by the legislature. A reduction in the annual appropriation by the State of Alaska would have a significant impact on the Association's ability to sustain operations at current levels.

The pass through local option tax revenues appropriated from the general fund by the legislature (salmon development tax) is considered financial assistance for purposes of presentation in the schedule of state financial assistance as required by the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*.

Budget Reserve

Pursuant to its bylaws, the Board of Directors (Board) established a budget reserve account. The intent of the Board in establishing this fund is to ensure that the Association has options irrespective of the outcome of any one fishing season. The Board shall establish by resolution the method for setting, attaining and maintaining the reserve account balance. Determination of the desired reserve level will be made annually at the same time as the Board approves the coming year's budget (no later than 45 days before year-end). No more than twenty-five percent of the budget reserve fund may be withdrawn annually from the budget reserve account to cover expenditures authorized in the Association's budget unless the Board, by two-thirds majority vote of the full Board, adopts a resolution approving the expenditure. As of December 31, 2017, the Board has designated revenue collected from the State of Alaska to be held for the Budget Reserve, calculated as follows for each respective season:

2006 - 2010 Season Reserve	\$ 1,421,217
2011 - 2015 Season Reserve	1,729,011
2015 Board approved withdrawals	(700,000)
2016 Season Reserve	384,722
2017 Board approved withdrawals	<u>(275,000)</u>
Total Budget Reserve	2,559,950
Interest and dividends earned to date	<u>36,474</u>
Total Budget Reserve and earnings	<u><u>\$ 2,596,424</u></u>

Bristol Bay Regional Seafood Development Association, Inc.

Notes to the Financial Statement, Continued

NOTE 1 - NATURE OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Public Support and Revenue Recognition

Contributions are recognized as revenue when received. All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Contributions made by a granting agency that are conditioned upon the Association incurring certain qualifying costs are recognized as revenue as those costs are incurred. All temporarily restricted support received and released from restrictions within the same year are treated as unrestricted support.

Functional Expenses

The costs of providing services have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited. Program service expenses include the costs to market and promote the region's seafood, seek improvements to the area's infrastructure, and work to raise quality, while management and general expenses are those expenses that are not directly identifiable with program services.

Subsequent Events

The Association has evaluated subsequent events through September 20, 2018, the date which the financial statements were available to be issued. No events were identified that required adjustment or disclosure in the financial statements.

NOTE 2 - INCOME TAXES

The Association is incorporated under the laws of the State of Alaska as a nonprofit corporation and is generally exempt from income taxes under the provisions of Section 501(c)(6) of the Internal Revenue Code.

Although the Association is generally exempt from federal income taxes, any income derived from unrelated business activities is subject to the requirement of filing Form 990-T and an income tax liability may be determined on those activities. The Association had no income derived from unrelated business activities for the years ended December 31, 2017 and 2016.

Bristol Bay Regional Seafood Development Association, Inc.

Notes to the Financial Statement, Continued

NOTE 3 - COMMITMENTS AND CONTINGENCIES

Program projects and contracts authorized but unpaid at year-end are reported as liabilities. At December 31, 2017 and 2016, the projects and contracts authorized and payable within one year totaled \$29,084 and \$76,825, respectively.

The Association has also authorized program projects and contracts that are contingent on projects starting, specific performance or required reporting. The contingent projects and contracts will be considered unconditional when the contingency requirements are met. All current program projects and contracts are written to be completed within one year. The following is a summary of contingent projects and contracts as of December 31, 2017 and 2016, respectively:

	<u>2017</u>	<u>2016</u>
Projects and contracts contingent upon projects starting	\$ -	-
Projects and contracts contingent upon specific performance	16,239	6,833
Projects and contracts contingent upon receipt of required reports detailing performance	1,500	61,526
	<hr/>	<hr/>
Total contingent projects and contracts	<u>\$ 17,739</u>	<u>68,359</u>

Expenses made pursuant to projects and contracts awarded to BBRSDA are subject to audit by the grantor or their representatives. Amounts reflected in the financial statement and expenses in prior years have generally not been audited by grantor agencies. Accordingly, adjustments of amounts received under projects and contracts could result if the projects and contracts are audited by such agencies. Management of the Association believes no significant liability will result from the foregoing matters, and accordingly, no liabilities for amounts which may be payable have been recorded in the accompanying financial statements.

NOTE 4 - CONCENTRATIONS

The Organization incurred expenses of approximately \$329,200 to Rising Tide Communications, representing 29% of total expenses for the year ended December 31, 2017. For the year ended December 31, 2016, the Organization incurred expenses of approximately \$384,400 to Rising Tide Communications, \$303,000 to the Alaska Department of Fish & Game and \$215,200 to the University of Washington representing 22%, 18% and 12%, respectively, of total expenses.

Independent Auditor's Report

To the Board of Directors
Bristol Bay Regional Seafood Development Association, Inc.
Sitka, Alaska

Report on the Financial Statements

We have audited the accompanying financial statements of Bristol Bay Regional Seafood Development Association, Inc. (a nonprofit corporation), which comprise the statements of financial position as of December 31, 2017 and 2016, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the Auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

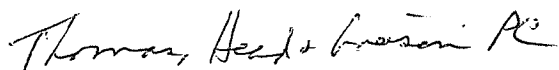

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Bristol Bay Regional Seafood Development Association, Inc. as of December 31, 2017 and 2016, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters – Other Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The schedule of state financial assistance, as required by the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits* is presented for purposes of additional analysis and is not a required part of the financial statements. The accompanying schedules of functional expenses are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 20, 2018 on our consideration of Bristol Bay Regional Seafood Development Association, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Bristol Bay Regional Seafood Development Association, Inc.'s internal control over financial reporting and compliance.

		<u>\$ 1,538,889</u>	<u>1,538,889</u>	<u>900,725</u>

* Major program

The accompanying notes to schedule of state financial assistance are an integral part of this schedule.

Bristol Bay Regional Seafood Development Association, Inc.

Notes to Schedule of State Financial Assistance

Year Ended December 31, 2017

General

The accompanying schedule of state financial assistance presents the activity of Bristol Bay Regional Seafood Development Association, Inc. (BBRSDA).

Basis of Accounting

The accompanying schedule of state financial assistance is presented using the accrual basis of accounting, which is described in BBRSDA's financial statements.

Nature of Revenues

In May 2006, Bristol Bay driftnet permit holders voted pursuant to Alaska Statute 43.76.370 to approve a 1% seafood development tax on the ex-vessel price of seafood sold, the "assessment", on their harvests to support BBRSDA. The tax is collected by the State and distributed to BBRSDA. The collection and disbursement process from the salmon season in which the tax is collected until the assessment amount is received by BBRSDA takes a year to complete. Because the funds are considered part of the State's general fund prior to distribution, BBRSDA does not recognize them as revenue until the beginning of the State fiscal year in which they will be distributed to BBRSDA. The Association received substantially all of its revenue from the State of Alaska. Annual funding by the State of Alaska is subject to appropriation by the legislature. A reduction in the annual appropriation by the State of Alaska would have a significant impact on the Association's ability to sustain operations at current levels.

The pass through local option tax revenues appropriated from the general fund by the legislature (salmon development tax) is considered financial assistance for purposes of presentation in the schedule of state financial assistance as required by the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Directors
Bristol Bay Regional Seafood Development Association, Inc.
Sitka, Alaska

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Bristol Bay Regional Seafood Development Association, Inc., which comprise the statement of financial position as of December 31, 2017, and the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated September 20, 2018.

Internal Control over Financial Reporting

In planning and performing our audit, we considered Bristol Bay Regional Seafood Development Association, Inc.'s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Bristol Bay Regional Seafood Development Association, Inc.'s internal control. Accordingly, we do not express an opinion on the effectiveness of Bristol Bay Regional Seafood Development Association, Inc.'s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

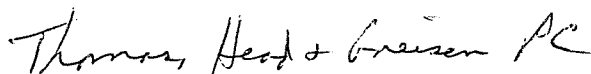

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Bristol Bay Regional Seafood Development Association, Inc.'s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance, and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

September 20, 2018

Independent Auditor's Report on Compliance for Each Major State Program and Report on Internal Control over Compliance Required by the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*

To the Board of Directors
Bristol Bay Regional Seafood Development Association, Inc.
Sitka, Alaska

Report on Compliance for Each Major State Program

We have audited Bristol Bay Regional Seafood Development Association, Inc.'s compliance with the types of compliance requirements described in the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits* that could have a direct and material effect on each of Bristol Bay Regional Seafood Development Association, Inc.'s major state programs for the year ended December 31, 2017. Bristol Bay Regional Seafood Development Association, Inc.'s major state programs are identified in the accompanying schedule of state financial assistance.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Bristol Bay Regional Seafood Development Association, Inc.'s major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*. Those standards and the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about Bristol Bay Regional Seafood Development Association, Inc.'s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However our audit does not provide a legal determination of Bristol Bay Regional Seafood Development Association, Inc.'s compliance.

Opinion on Each Major State Program

In our opinion, Bristol Bay Regional Seafood Development Association, Inc. complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended December 31, 2017.

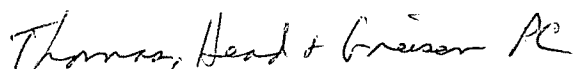

Report on Internal Control over Compliance

Management of Bristol Bay Regional Seafood Development Association, Inc. is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Bristol Bay Regional Seafood Development Association, Inc.'s internal control over compliance with the types of requirements that could have a direct and material effect on each major state program as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Bristol Bay Regional Seafood Development Association, Inc.'s internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*. Accordingly, this report is not suitable for any other purpose.
